

MUHAMMAD ABUBAKAR
Software Engineer

ambursa.faisal@gmail.com | github.com/ambursa-a | Nigeria

PROFESSIONAL SUMMARY

Motivated and detail-oriented Junior Software Engineer currently pursuing a degree at Miva Open University. Passionate about building high-quality iOS applications and full-stack web solutions using the MERN stack. Certified Software Engineer (Coursera) with hands-on project experience in mobile and web development. A quick learner eager to contribute to collaborative engineering teams and grow through real-world challenges.

TECHNICAL SKILLS

iOS Development: Swift, SwiftUI, UIKit, Xcode, Core Data, REST API integration

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, Mongoose ODM

Tools & Others: Git, GitHub, VS Code, Postman, Agile/Scrum basics

PROJECTS

TaskFlow — iOS Productivity App

Tech: Swift · SwiftUI · Core Data · REST API

- Designed and developed a native iOS task-management app enabling users to create, prioritise, and track daily goals with real-time reminders.
- Implemented local persistence with Core Data and synced data with a RESTful backend, achieving seamless offline/online functionality.
- Applied MVVM architecture to separate business logic from the UI, resulting in cleaner, maintainable code.
- Delivered a polished, accessible UI following Apple Human Interface Guidelines, supporting both light and dark mode.

ShopNow — Full-Stack E-Commerce Platform

Tech: MongoDB · Express.js · React.js · Node.js (MERN)

- Built a complete e-commerce web application from scratch featuring product listings, a shopping cart, user authentication, and order management.
- Developed a secure RESTful API with Node.js/Express, implementing JWT-based authentication and role-based access control for admin and customers.
- Created a dynamic React frontend with context API for state management, resulting in a fast, responsive single-page application.
- Integrated MongoDB Atlas for cloud-based data storage and deployed the application to a cloud hosting platform.

EDUCATION

Miva Open University
B.Sc. Software Engineering (In Progress)
Expected Graduation: 2027 · Nigeria (Online)

CERTIFICATIONS

-
-
- Software Engineering Certificate — Coursera (Issued 2026)
Covers software design principles, data structures, algorithms, OOP, and professional development practices.

ADDITIONAL INFORMATION

Languages English (Professional), Hausa (Native)
Interests Open-source contribution, mobile UX design, tech communities & hackathons
Availability Open to internships, graduate roles, and freelance projects
